

protocollinker

October 2014: A [script to collect filenames](#) is now available for recent BrainVoyager QX versions (tested with BrainVoyager QX 2.8.0).

September 2013, BrainVoyager QX 2.8: In case problems are encountered with linking protocol files, one could try to remove file paths for the protocol files (*.prt). Further details follow and/or plugin will be adapted to this BrainVoyager QX 2.8 feature.

Spring 2012: *please note that this tool is now more or less obsolete, since there is a scripting function SaveVTC() since BrainVoyager QX 2.4.1. See the script LinkPRTSaveVTC.js in /Documents/BVQXExtensions/Scripts/.*

Protocol to VTC linker plugin for BrainVoyager QX. Links protocol files to vtc files in the same directory. The plugin expects a text file (*.txt) with the following structure:

nr of pairs

prt 1 name

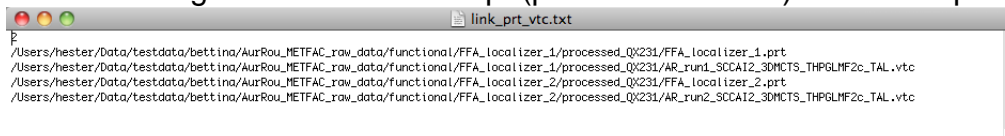

vtc 1 name

..

prt N name

vtc N name

This text file can be generated with a script (please see above). The example text file is shown

```
link_prt_vtc.txt
/Users/hester/Data/testdata/bettina/AurRou_METFAC_raw_data/functional/FFA_localizer_1/processed_QX231/FFA_localizer_1.prt
/Users/hester/Data/testdata/bettina/AurRou_METFAC_raw_data/functional/FFA_localizer_1/processed_QX231/AR_run1_SCCA12_30MCTS_THPGLMF2c_TAL.vtc
/Users/hester/Data/testdata/bettina/AurRou_METFAC_raw_data/functional/FFA_localizer_2/processed_QX231/FFA_localizer_2.prt
/Users/hester/Data/testdata/bettina/AurRou_METFAC_raw_data/functional/FFA_localizer_2/processed_QX231/AR_run2_SCCA12_30MCTS_THPGLMF2c_TAL.vtc
```

below.

Version 0.2:

Manual: [Protocollinker_v02.pdf](#)

BrainVoyager QX 2.2 and higher:

[protocollinker for Mac OS X](#)

[protocollinker for Windows 32-bit \(for BVQX 2.6\)](#) (new 20-08-13)

[protocollinker for Windows 64-bit \(for BVQX 2.6\)](#) (fixed 20-08-13)

[protocollinker for Windows 64-bit \(for BVQX 2.8\)](#) (new 20-08-13)

Note for the new version: if an error message appears, try removing the path names (of the protocol?) in the text file with file names. Detailed instructions will follow later. (With thanks to JP.)
