

BrainVoyager QX 2.8

Reference Card

for Mac OS X

Keyboard and mouse commands in BrainVoyager QX.
Notes:

- *Click* by itself means the left mouse button,
- *Drag* means moving the mouse while pressing the (left) mouse button.

General

cmd+n	Create project dialog
cmd+o	Load project
ctrl+cmd+o	Load mesh (requires open VMR)
cmd+s	Save project
cmd+w	Close document
cmd+f	Toggle full screen
cmd+q	Quit BrainVoyager

FMR

Moving around

ctrl+cmd+click	Toggle single slice view
←	Previous slice
→	Next slice

Signal time course

click	Single voxel ROI time course
drag	ROI time course
shift+click/drag	Add to ROI time course
cmd+click/drag	New ROI time course

Statistical analysis

cmd+g	Single Study GLM dialog
cmd+u	Multi Study GLM dialog
cmd+v	Overlay GLM Contrasts dialog

Dialogs

cmd+m	Statistical maps dialog
cmd+p	FMR data preprocessing
cmd+r	Region of interest dialog

VMR

Moving around

click	Move
←/→	Change sagittal slice
↑/↓	Change axial slice
shift+↑/↓	Change coronal slice

Display options

ctrl+cmd+click	Toggle single slice view
cmd+t	Cycle through single slice views
a	Show/hide cross
cmd+↑/↓	Change map transparency

Signal time course (VTC linked, no map)

cmd+click	ROI time course plot for a voxel
shift+click	Add voxel to ROI time course
shift+cmd+click	New ROI time course

Signal time course (VTC linked, map shown)

cmd+click	Select ROI within active voxels and show ROI time course plot
shift+click	Add to ROI time course
shift+cmd+click	New ROI time course

Statistical analysis

cmd+g	Single Study GLM dialog
cmd+u	Multi Study GLM dialog
cmd+v	Overlay GLM Contrasts dialog
cmd+b	RFX Ancova dialog
cmd+d	Overlay RFX Ancova tests

Dialogs

cmd+r	Volume of interest dialog
cmd+m	Volume maps dialog
cmd+k	Link VTC

Drawing

enabled in 3D Volume Tools > Segmentation

cmd+click	Draw in VMR
shift+cmd+click	Delete (set voxel intensity to 0)

Secondary VMR

F8	Toggle primary/secondary VMR
F9	Switch blend mode

Volume Rendering

drag	Rotate around x and y axes
shift+drag	Translate along x and y axes
shift+cmd+drag	Zoom

Surface

Moving around

←/→	Rotate around z axis
↑/↓	Rotate around y axis
drag	Rotate around y and z axes
shift+drag	Translate along y and z axes
shift+cmd+drag	Translate along x axis (zoom)

Display options

p	Toggle perspective projection
a	Switch axis display modes
x / y,z	Move slice plane

Statistical analysis

cmd+g	Single Study GLM dialog
cmd+u	Multi Study GLM dialog
cmd+v	Overlay GLM Contrasts dialog
cmd+b	RFX Ancova dialog
cmd+d	Overlay RFX Ancova dialog

Signal time course

cmd+click	ROI signal time course
shift+click	Add to ROI signal time course
shift+cmd+click	New ROI time course

Dialogs

v	Viewpoint dialog
cmd+e	Surface Maps dialog
cmd+i	Patch-of-Interest dialog
ctrl+cmd+f	Fiber Tracts dialog

DMR

Moving around

←	Previous slice
→	Next slice
ctrl+cmd+click	Toggle single slice view

Signal time course

click	Single voxel ROI time course
drag	ROI time course
shift+click/drag	Add to ROI time course
cmd+click/drag	New ROI time course

Dialogs

cmd+m	Statistical maps dialog
